PROFILE

I hold a Bachelor's degree in Electromechanical Engineering. With three years of experience in the manufacturing industry,

Currently, I am a Fullstack Web Developer, passionate about creating dynamic and user-friendly web applications. My background in engineering provides me with a unique perspective on problem-solving and project management, which I apply to my development work.

I am excited to merge my technical expertise with my newfound skills in web development to deliver innovative solutions.

WORK EXPERIENCE

Aurora Oxygen Manufacturing   2021-2023
Technical and Production Manager

- I have developed a solid foundation in technical management and production processes
- Technical Manager for one year, followed by two years as a Technical and Production Manager.
- Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.

Work on Difflrent Projects   2023-2024
Fullstack Web Developer

- As a Fullstack Developer, I am actively learning and gaining experience in both frontend and backend development.
- I have completed several projects that have helped me build a solid foundation in integrating technologies, managing databases, and creating responsive designs..
